PROFESSIONAL EXPERIENCE

PT Bukaka Teknik Utama Tbk | IMS Officer

Balikpapan, Kalimantan Timur • Aug 2026 – Present

- Develop digital solutions to replace conventional operational processes, including the Contract Management System.
- Support internal audit activities across departments through coordination, evidence collection, and follow-up monitoring of audit findings.
- Control management-system documentation to ensure documents are available, controlled, documented, and aligned with applicable requirements.
- Support the preparation, review, and improvement of Standard Operating Procedures (SOP) and Work Instructions (WI).
- Support employee awareness and implementation of ISO 9001:2015 and other applicable ISO standards.

PT Pengelola Limbah Kalimantan Timur (PLKK) | Programmer

Balikpapan, Kalimantan Timur • Aug 2024 – Aug 2026

- Developed and maintained ERP applications supporting waste-management business processes.
- Optimized complex database queries, reducing execution time by approximately 30–50%.
- Reduced bug-resolution time by approximately 25% through structured troubleshooting and problem solving.
- Designed scalable architecture for key features, improving maintainability by approximately 30%.

Ganesha Operation | IT Staff

Balikpapan, Kalimantan Timur • Jul 2024 – Aug 2024

- Prepared periodic reports with 100% on-time delivery and improved data accuracy by approximately 25%.
- Resolved 90%+ of technical issues on the same day, reducing downtime by approximately 30%.
- Managed digital content and social-media design, contributing to approximately 40% higher engagement.
- Improved organization of operational data across reports and digital content.

Pertamina RU V Balikpapan | Network Engineering Intern

Balikpapan, Kalimantan Timur • Apr 2023 – Jun 2023

- Created network mapping and simulations using PRTG, Cisco, and GNS3 for the Electronic Communication office.
- Monitored radio/HT registration used for on-site communication.
- Supported laptop SSD replacement as part of hardware procurement and maintenance activities.

Klinik Juanson | Administration Support

Balikpapan, Kalimantan Timur • Oct 2020 – Dec 2020

- Managed administrative documents related to company sales.

- Supported operational requirements related to rapid-test services.

SELECTED PROJECTS

Contract Management System — Bukaka | IMS Officer / Developer

Balikpapan, Kalimantan Timur • 2026 – Present

- Designed and developed a web-based Contract Management System using Laravel, PHP, MySQL, and JavaScript.
- Designed database structures and workflows for projects, contracts, parties, documents, periods, statuses, and contract monitoring.
- Developed document management, contract tracking, status monitoring, and role-based access control features.
- Adapted workflows and contract structures to different project requirements.
- Handled requirement analysis, development, testing, and continuous improvement based on user and business-process needs.

Klinik Mirabell — Website & ERP | Web & ERP Developer

Balikpapan, Kalimantan Timur • Sep 2024 – Aug 2026

- Developed the clinic's official website to provide service information and support online patient registration.
- Contributed to ERP development covering patient management, doctor schedules, finance, inventory, and related operational processes.
- Built responsive web interfaces using PHP for backend development and JavaScript for frontend functionality.

Waste Management ERP — PLKK | Developer

Balikpapan, Kalimantan Timur • Sep 2024 – Aug 2026

- Contributed to ERP development for waste-management operations.
- Developed features for recording waste types, volumes, sources, and operational activities.
- Implemented logistics tracking to monitor waste movement from collection through management processes.
- Applied responsive design principles for multi-device usability.

NAJ Inventory | Programmer

Balikpapan, Kalimantan Timur • Sep 2024 – Mar 2025

- Developed features supporting vehicle rental and repair operations, including supplier, customer, and owner management.
- Implemented vehicle rental records, schedules, availability tracking, repair monitoring, and spare-parts management.

UMKM An-Nur Collection | Full-Stack Developer

Balikpapan, Kalimantan Timur • Dec 2023 – May 2024

- Analyzed business and user requirements and translated them into application features.
- Designed system architecture, technology stack, and database structure for performance and scalability.
- Developed responsive interfaces using HTML, CSS, and JavaScript.
- Built backend logic and APIs using PHP and Laravel with MySQL database integration.
- Performed unit and integration testing and resolved defects during development.

Ingfo Balikpapan | UI/UX Designer

Balikpapan, Kalimantan Timur • Sep 2022 – Nov 2022

- Conducted user research for tourism information and public-transport route needs.
- Designed responsive interfaces, wireframes, and interactive prototypes using Figma.
- Conducted prototype testing and iterated designs based on user feedback.

Bro Laundry | Mobile Developer

Balikpapan, Kalimantan Timur • Mar 2022 – May 2022

- Designed and developed a mobile laundry-service application using Android Studio and Java.
- Implemented responsive UI, material design, ordering features, and backend/API integration.

RA Al-Mulia Registration System | Developer

Balikpapan, Kalimantan Timur • Jun 2024 – Jul 2024

- Developed a responsive digital registration form with document-upload support.
- Implemented status notifications and an admin dashboard for applicant management and reporting.

EDUCATION

Institut Teknologi Kalimantan (ITK) | Bachelor of Information Systems | 2020–2024
