Self-Description

I am Muhammad Taufik Nur Hidayatullah, familiarly called Upik, a student of Information Systems at the Kalimantan Institute of Technology class of 2020. I am a graduate of the ITK Information Systems study program. Currently, I have completed my Final Project with the title "MSME Website Development in An - Nur Collection using the Laravel Framework with the PXP method". My current job is working as a programmer and building a website portfolio and taking some freelance work for website development. I have experience in mapping monitoring networks using PRTG, Cisco, Microtic at Pertamina RU V Balikpapan electronic communication office department.
